The Wyatt Ranch, located 45 minutes East of Austin in Smithville Texas, attracts those buyers looking for a beautiful primary residence on large acreage or the recreational seeker looking to escape the hustle and bustle of town. Built in 2017, the 4 bedroom 4 bath Nalle Custom home boasts soaring ceilings, tons of counterspace and even an outdoor pizza fireplace. Tucked away just off HWY 71, this ranch doesn't get anymore private. The owner has meticulously re-seeded the entire ranch in native grasses designed to attract and create a habitat for species such as quail, whitetail deer, turkey and other local animals. A large 2 acre lake was constructed in 2015 which is fed by a solar well and meticulously well kept. The owner reports 7 pound bass, crappie and catfish. In addition, the southern slough feeding the tank creates an excellent feeding area for ducks. There is an additional pond on the west side which is also plumbed to the well. The northern portion of the ranch has been selectively cleared making it an excellent haven for deer and hogs.

Built in 2017
