Come marvel at this incredible McCarleyâ€™s Construction designed home in the ever growing and expanding 78745! This modern duplex lives like a single family home with sound proof walls, thoughtfully curated with soaring 15ft tall ceilings, massive picture windows that bring in a copious amounts of natural light. Engineered birch flooring throughout the home with luxe tile selections in all bathrooms and the kitchen. Upon entering the home, you will find a contemporary open floor plan connecting the living room, dining room, gourmet kitchen with gorgeous cabinets, high end quartz countertops with large waterfall island, and spacious living area perfect for entertaining. One bedroom located downstairs that could double as a wonderful home office, with connected full bath. On the second floor you'll find your primary suite, exquisite primary bath, walk in and walk thru primary closet, laundry room with equipped with soaking sink, and another guest bedroom with full bath. The star of the show in my opinion is the enormous open loft space that could be used as a second living space, game room, home gym, another home office, or home theater. The possibilities are endless! Private backyard spaces and large front yards as well with covered carports and separate driveways.

Completion done April 2022.
